The Buyer agrees to submit an application and fee for an STS evaluation to Huron County Public Health within 30 days of closing. Furthermore, it is the Buyer's responsibility to contact Huron County Public Health to schedule the evaluation within 60-120 days after occupancy. Any deficiencies in the sewage treatment system must be corrected in accordance with all applicable regulations, and is the responsibility of the buyer.

In consideration for this temporary waiver to evaluate and potentially sample the effluent from the STS, Buyer acknowledges that the current situation does not allow Huron County Public Health to perform the STS evaluation. In addition, the Buyer listed on this form understands the risk and future obligations to evaluate and potentially sample the STS and is **knowingly buying the property "AS IS"**.

"AS IS" (The buyer acknowledges complete responsibility to bring sewage treatment system into compliance). An Evaluation and/or Sample have not been completed. The Buyer understands and agrees that the seller and Huron County Public Health have no express or implied warranties concerning the sewage treatment system. The Buyer takes possession of the property at their own risk without recourse for the condition or performance of the sewage treatment system, and is responsible for any required upgrade should the system be found to be non-compliant.

Buyer's signature serves as written acknowledgement that the Seller is aware of and is unwilling to authorize an evaluation or has made an agreement with the Buyer to accept the property "AS IS".
